THE ORIGINAL KOZY-COATS®

Frost protection for an earlier growing season. Experience an extra month of your delicious fruits and vegetables, and garden blooms.

Whether its tomatoes, cucumbers, peppers, melons, or any other heat loving plants, Kozy-Coats® are the secret to enjoying your heat loving plants early every year. Reusable water filled teepees store heat during the day, and protect your plants at night. Your customers will be the first to pick vegetables this year by using Kozy-Coat® to guard tender plants against the outdoor elements and extending their growing season. You don't have to worry about heavy frost or late blizzards. Kozy-Coats® will protect your plants through the worst spring weather even if the water in Kozy-Coats® turns into ice, your plant is still protected.

**Step-by-Step Instructions:**

- 1 Fill the plastic tubes on the Kozy-Coat® with water.
- 2 Adjust the Kozy-Coat® into a teepee shape and position over your plant. If the garden soil is cold (or even frozen), place your Kozy-Coats® on the soil for a week to 10 days. When the ground has been warmed, remove the Kozy-Coat® and set your plant in the ground. Re-position the Kozy-Coat® over your plant.
- 3 When the weather is reliably warm, remove the Kozy-Coat® and store for use next season.

# SEA MAGIC®

## Dry Soluble Seaweed Extract

# ADD SEAWEED

TO YOUR FERTILIZING PROGRAM  
& WATCH YOUR GARDEN GROW

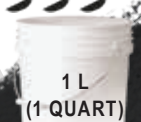

## MEASUREMENTS

Adding seaweed to your current fertilizing program may be the most important thing you have ever done for your garden. The seaweed in Sea Magic®, *Ascophyllum Nodosum*, is harvested from the cold clear waters of the North Atlantic and is quickly dried under a special procedure designed to keep its natural qualities intact. Apply Sea Magic® every 2 or 3 weeks to desired areas to improve and increase growth.

30 G PKG

3 TSP  
CONCENTRATE

1/2 CUP  
CONCENTRATE

8 L  
(2 GAL)

**30 GRAM  
PACKAGE  
MAKES  
250 L OR  
55 GALLONS**

## Step-by-Step Instructions:

1. Dissolve one package 30 g (1 oz) of Sea Magic® into a 4 L (1 gallon) jug or pop bottle filled with warm water. This is your liquid concentrate. Store in a cool place.
2. To use on plants in your home or garden, add 15 ml (3 tsp) of the liquid concentrate to each litre (quart) of water. If you're using a standard size 8 L (2 gallon) watering can, add 120 ml (1/2 cup) of the liquid concentrate each time you fill the watering can with water.

For use on all:

- flowers
- vegetables
- tomatoes
- strawberries
- fruit trees
- shrubs
- lawns
- seedlings
- houseplants

# BLOOMING BAGS

Fill & Grow with Ease

**GROW  
FULL  
BLOOMS  
& HANG  
ANYWHERE  
OUTDOORS**

## BLOOMING BAGS SINGLE POUCH

CODE	DESCRIPTION	CASE QTY
BB2	2 Pack Green Single Pouch Plastic Handle UPC: 0 63008 00201 8	24
BB2BULK	Bulk Green Single Pouch Plastic Handle	250

Whether it's strawberries, herbs, or flowers, Blooming bags are the secret to enjoying full blossoming plants, for the whole growing season. Ideal for hanging anywhere outdoors.

For successful and full blossoms in shaded or partially shaded areas, plant impatiens, begonias, pansies, browallia, lobelia, or mimulus (monkey flower).

For sun drenched areas try dwarf marigolds, herbs, portulaca, verbena, alyssum, or strawberries. Experiment and you may be pleasantly surprised with the colorful results!

### Step-by-Step Instructions:

1. Fill the Blooming Bag with soilless mix or light soil. Adding slow release fertilizer to the mixture before filling will yield more beautiful blooms.
2. Use a serrated knife (a steak knife works well) to cut along the dotted lines. Tuck the resulting flap of plastic into the pouch. Push your handpicked seedlings into the holes.
3. Hang anywhere, water, and watch your plant blossom. When the Blooming Bag has fully blossomed, to water the plants dunk the whole bag into a tub or barrel.

# TOMATO MULCH, STAPLES & GARDEN TIES

Grow More Crops You Love

## HIGH-YIELD TOMATO MULCH

CODE	DESCRIPTION	CASE QTY
HYTM	High-Yield Tomato Mulch Single Roll 18" x 25' UPC: 0 63008 12345 4	24
	10+ cases	24

Helps grow plants that are healthier, more vibrant and sure to yield more of the crops you love. The Tomato Mulch reflects the growth promoting red spectrum of sunlight onto the plants. Tests show up to 26% increase of fruit and vegetables. High-Yield Tomato Mulch is ideal for tomatoes, peppers and strawberries.

- Retains moisture in soil around plants
- Prevents weed growth
- Reduces blight caused by spores in soil splashing onto leaves

## LANDSCAPE STAPLES FOR LANDSCAPE FABRICS & TOMATO MULCH

CODE	DESCRIPTION	CASE QTY
LS20	Landscape Staples 20 / pkg UPC: 0 63008 00888 1	24
LS50	Landscape Staples 50 / box UPC: 0 63008 00889 8	12

The ideal addition to secure your Landscape Fabric, Tomato Mulch, or Ground Cover. They are easy to install. Simply install the staples along the outer edges of your material and by pushing firmly into the ground.

## MULTI-PURPOSE GARDEN TIES

CODE	DESCRIPTION	CASE QTY
GT6	10 Pack - 6" Garden Ties UPC: 0 63008 00906 2	36

Easy to use and ideal to secure climbing plants and vines to support structures. Simply loop the tie around your plant and its support, adjust it, and lock it into place. Soft, yet durable and strong, these reusable ties will ensure your plants grow tall and strong.

*The wide range of Bonadea Gardens® products  
help increase any gardens yield and  
get the most out of each growing season.*
