INTRODUCING BONADEA GARDENS® RETAIL SOIL LINE

Item # 1	Usage:
<p>Description: Bonadea Gardens - 3 in 1 Plus Blended Soil Mix</p> <p>New Garden Beds: 3 in 1 is the most complete blended soil, and can be used for establishing a new garden or shrub bed. It contains compost which helps improve microbial activity in the soil.</p> <p>Planting trees, shrubs, roses and perennials: Before planting, in the bottom of the hole, mix 50% 3 in 1 with 50% existing soil and line the bottom of the hole. Use that same ratio in and around the root ball, when back filling the hole.</p> <p>Topdressing lawns: Use directly to topdress your lawn and fill in bare patches. Add 30 to 40L per 10m², rake and water in well.</p> <p>Sizes: 30 Litres - 60/pallet (Item # 1: 445-48040-BG)</p>	<ul style="list-style-type: none"> • All Trees • Shrubs • Roses & Perennials • New Garden Beds • Topdressing Lawns

Item # 2	Usage:
<p>Description: Bonadea Gardens - All Purpose Mix</p> <p>Starting Seedlings & Cuttings: Fill trays or pots with All-Purpose Potting Mix, moisten soil before planting, then plant your seeds or cuttings according to directions. Use a mister bottle to water your seed so they won't wash away.</p> <p>Planting hanging baskets, containers and window boxes: Add All-Purpose Potting Mix to about 5 cm (2") from top of container. Add your flowers and water with a transplant fertilizer solution according to the directions. This will help to prevent transplant shock. Remember to fertilize your plants during the entire growing season. Choose a balanced fertilizer and use according to the directions on the label.</p> <p>Houseplants: When transplanting your houseplants, choose a pot 5 or 6 cm (2") larger than the existing pot. In the bottom, add drainage and then All-Purpose Potting Mix. Gently place your plant in the bottom and add Potting Mix to the top of the pot. Water with a transplanting solution according to the directions on the label.</p> <p>Sizes: 30 Litres - 75/pallet (Item # 2a: 445-33030-BG) 56 Litres - 60/pallet (Item # 2b: 445-33056-BG)</p>	<ul style="list-style-type: none"> • Seedlings • Cuttings • Hanging Baskets • Containers • Window Boxes • Houseplants

SOIL SAVER

New Age in Gardening

TRANSFORM YOUR GARDENING EXPERIENCE
WITH SMART SOIL SAVER PLANTERS

LESS IS MORE

Soil Saver planters are becoming increasingly popular because of their many benefits. One of the most significant advantages of these planters is their environmental friendliness. They use less soil, which means less waste and less impact on the environment. Additionally, the reduced soil volume means less water is needed to keep the plants hydrated, which can save on water usage and reduce the amount of runoff.

Also, using a soil saver planter can help to reduce the amount of water and fertilizer needed to grow plants. This is because the planter is designed to hold a smaller amount of soil, which means that the roots of the plants have less space to grow. As a result, they are more efficient at absorbing water and nutrients, which can lead to healthier and more vibrant plants.

WATER SAVER

This self-watering planter offers more than an elegant look. The soil within the planter sits on top of the water reservoir that allows the roots to stretch down out of the soil and into the water for nourishment to stay healthy. The base has an 8" tall cone that will drain any cause of over watering while conserving water that also prevents root rot. This is the perfect solution for travelers and those having difficulty keeping up with plant watering needs.

CONVENIENCE.

Save time and effort by eliminating the need to water plants manually.

CONSISTENCY.

Ensure that plants receive a consistent supply of water.

REDUCE WATER USAGE.

Allows plants to access water as they need it, rather than being over watered.

BETTER ROOT DEVELOPMENT.

Promotes healthy growth.

REDUCE MAINTENANCE.

Require less maintenance than traditional planters.

Item # 13

Joanna Square with Water Saver 15½"
(6/cs)

Out: 15½"x15½" H: 22"

Available Colours:

- a. 124-TZ3204BBP-TV (black brushed penny)
- b. 124-TZ3204BK-TV (black)

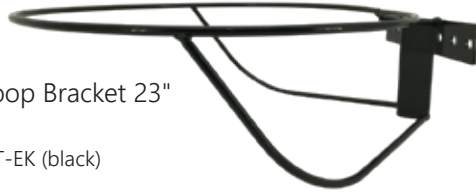

No More Worrying

These planters allow you to enjoy beautiful, season long plants that won't cause you any worry when you go away for the weekend! The water reservoir includes an overflow feature to prevent over-watering and allows you to relax the need to water established plants only every 3 to 4 days. In addition, the removable liner makes clean up and quick changes easier. Store away during the colder months or use it for an attractive winter display with seasonal greens and red bows of embellishments. The classic black colour matches any decor.

GREENHOUSE ACCESSORIES

MULTI-FUNCTIONAL

Indoor Gardening

Many people have limited space available and these two options are perfect for starting seedlings, young plants and flowers making the most of the growing season. Mini greenhouse growing is a satisfying and relaxing hobby, providing plenty of enjoyment without the full scale commitment of a large greenhouse.

FEATURES:

- Light-weight
- Extra Thick material
- Easy to set up and tear down
- No tools required
- Designed for easy access

SELF-WATERING

REDUCE GARDENING DUTIES TO A MINIMAL

Item #271a
 Solus Self-Watering 21¾"
 (1/cs)
 120-JVSS55C-JP (charcoal)
 Out: 21¾" B: 15" H: 24"

Item # 270

SPECIAL PRICING

Vida Herb Self-Watering 16"
 (1/cs)
 Out: 16" B: 10" H: 16½"
 *While quantities last

Available Colours:
 a. 120-JVIDA1B-JP (off-white)
 b. 120-JVIDA1J-JP (denim)
 c. 120-JVIDA1L-JP (black)
 d. 120-JVIDA1O-JP (stone)

VIDA HERB INSTRUCTIONS:

1. Insert approximately 6" of each wick into the reservoir.
2. Route the wicks into the hole in the bottom of the planter and accommodate them in each opening.
3. Put a layer of clay pebbles/geotextile blanket and fill the rest with potting mix, covering the wicks.
4. Choose the herbs of your preference, plant them, water the soil in a conventional way and refill the reservoir to the maximum level.

Item # 271

Solus Self-Watering 21¾"
 (1/cs)
 Out: 21¾" B: 15" H: 24"
Available Colours:
 a. 120-JVSS55C-JP (charcoal)
 b. 120-JVSS55L-JP (black)

SOLUS INSTRUCTIONS:

1. Hold ropes above 15cm from the bottom
2. Add soil to the same height and drop the ropes
3. Place plant(s) in the center of the pot and fill with remaining soil
4. Water the plant as usual for 3 months
5. After 3 months, start filling the water reservoir to activate self-watering system
6. For drainage, if necessary, simply remove the plug at the base of the pot

BETTER WAYS TO GROW!

INTRODUCING BONADEA GARDENS® RETAIL SOIL LINE

Item # 1

Usage:

Description:

Bonadea Gardens - 3 in 1 Plus Blended Soil Mix

New Garden Beds:

3 in 1 is the most complete blended soil, and can be used for establishing a new garden or shrub bed. It contains compost which helps improve microbial activity in the soil.

Planting trees, shrubs, roses and perennials:

Before planting, in the bottom of the hole, mix 50% 3 in 1 with 50% existing soil and line the bottom of the hole. Use that same ratio in and around the root ball, when back filling the hole.

Topdressing lawns:

Use directly to topdress your lawn and fill in bare patches. Add 30 to 40L per 10m², rake and water in well.

Sizes:

30 Litres - 60/pallet (Item # 1: 445-48040-BG)

- All Trees
- Shrubs
- Roses & Perennials
- New Garden Beds
- Topdressing Lawns

Item # 2

Usage:

Description:

Bonadea Gardens - All Purpose Mix

Starting Seedlings & Cuttings:

Fill trays or pots with All-Purpose Potting Mix, moisten soil before planting, then plant your seeds or cuttings according to directions. Use a mister bottle to water your seed so they won't wash away.

Planting hanging baskets, containers and window boxes:

Add All-Purpose Potting Mix to about 5 cm (2") from top of container. Add your flowers and water with a transplant fertilizer solution according to the directions.

This will help to prevent transplant shock. Remember to fertilize your plants during the entire growing season. Choose a balanced fertilizer and use according to the directions on the label.

Houseplants:

When transplanting your houseplants, choose a pot 5 or 6 cm (2") larger than the existing pot. In the bottom, add drainage and then All-Purpose Potting Mix. Gently place your plant in the bottom and add Potting Mix to the top of the pot. Water with a transplanting solution according to the directions on the label.

Sizes:

30 Litres - 75/pallet (Item # 2a: 445-33030-BG)

56 Litres - 60/pallet (Item # 2b: 445-33056-BG)

- Seedlings
- Cuttings
- Hanging Baskets
- Containers
- Window Boxes
- Houseplants

Blooming Bags

Item #	Product Code	Description	Quantity
272	710-BB2C-BG	Blooming Bag Single Pouch - 2 pack	24/cs
273	710-EZGROW-BG	E-Z Grow Bags	250/cs

Blooming bags are the secret to enjoying full blossoming plants, for the whole growing season and is perfect for hanging anywhere outdoors.

Tomato Mulch

Item #	Product Code	Description	Size	Quantity
274	710-HYTMC-BG	High-Yield Tomato Mulch	18"x25'	24/cs

Helps grow healthier, more vibrant, and up to 26% higher crop yield. Reflects the growth promoting red spectrum of sunlight onto the plants.

- Retains moisture in soil
- Prevents weed growth
- Reduces blight caused by spores in soil splashing onto leaves

Sea Magic

Item #	Product Code	Description	Size	Quantity
275	710-SM30PKC-BG	Sea Magic	30 g	100/cs
276	710-SM21PKCDC-BG	Sea Magic 21 Package Counter Display (\$4.81 / pkg)	30 g x 21	1/dis
277	710-SM230PKC-BG	Sea Magic with Measuring Scoop	230 g	24/cs

Adding Sea Magic to your current fertilizing program may be the most important thing you have ever done for your garden. The seaweed in Sea Magic, *Ascophyllum Nodosum*, is harvested from the cold clear waters of the North Atlantic and is quickly dried under a special procedure designed to keep its natural qualities intact. Apply Sea Magic every 2 or 3 weeks to desired areas to improve and increase growth. For use on all flowers, vegetables, tomatoes, strawberries, fruit trees, shrubs, lawns, seedlings, and houseplants.

Step-by-Step Instructions:

- 1 Dissolve 30 g (1 oz) of Sea Magic into a 4 L (1 gallon) jug or pop bottle filled with warm water. This is your liquid concentrate. Store in a cool place.
- 2 To use on plants in your home or garden, add 15 ml (3 tsp) of the liquid concentrate to each litre (quart) of water. If you're using a standard size 8 L (2 gallon) watering can, add 120 ml (½ cup) of the liquid concentrate each time you fill the watering can with water.

Kozy-Coats®

Item #	Product Code	Description	Quantity
278	710-KC2PKDISP-BG	2 Pack Kozy-Coats w/ Display Case	2 Pack x 12/dis
279	710-KC2PKC-BG	Kozy-Coats 2 Pack	2 Pack x 36/cs
280	710-KC3PKCDISP-BG	3 Pack Kozy-Coats w/ Display Case	3 Pack x 8/dis
281	710-KC3PKC-BG	Kozy-Coats 3 Pack	3 Pack x 36/cs
282	710-KC6PKC-BG	Kozy-Coats 6 Pack	6 Pack x 20/cs
283	710-KC10PKC-BG	Kozy-Coats 10 Pack	10 Pack x 12/cs
284	710-KCBULK-BG	Kozy-Coats Bulk	150/cs

Step-by-Step Instructions:

- 1 Fill the plastic tubes on the Kozy-Coat with water.
- 2 Adjust the Kozy-Coat into a teepee shape and position over your plant. If the garden soil is cold (or even frozen), place your Kozy-Coats on the soil for a week to 10 days. When the ground has been warmed, remove the Kozy-Coat and set your plant in the ground. Re-position the Kozy-Coat over your plant.
- 3 When the weather is reliably warm, remove the Kozy-Coat and store for use next season.

Repair Sleeves

Item #	Product Code	Description	Quantity
285	710-RSC-BG	Repair Sleeves 10 Pack	10 Pack x 50

Increase the life of your Kozy-Coats with easy to use Repair Sleeves. Each repair kit comes with enough sleeves to increase the use of Kozy-Coats for many years to come.

GROWING MEDIA

The production of greenhouse crops involves a number of cultural inputs. Among these, perhaps the most important is the type of growing medium used. Due to the relatively shallow depth and limited volume of a container, growing media must be amended to provide the appropriate physical and chemical properties necessary for plant growth.

Item #	Product Code	Description	Type	Size
306	450-106405-PV	Vermiculite	Medium Grade	110 L
307	450-107402-PV	Vermiculite	Coarse Grade	110 L
308	450-107501-PV	Vermiculite	Super Coarse Grade	110 L

Vermiculite allows growers to create a growing media that promotes healthy, profitable crops.

- Features smaller sterile absorbent particles results in superior water and nutrient holding capabilities
- Its natural mica mineral composite expands under extreme heat to help loosen soil allowing roots to spread and grow which makes it a great option for seed germination and cutting propagation
- Attracts potassium, magnesium, calcium, and ammonium which releases vital elements to the roots

Item #	Product Code	Description	Size
309	450-105408-PV	Coarse Perlite	110 L

Horticultural Perlite helps plants thrive and improves soil structure, keeping it workable for years. This inorganic mineral will produce healthier plants that require less labour and watering.

- Provides aeration and drainage while retaining amounts of water and releases water when needed
- Water-holding ability increases the nutrient holding capacity when water-soluble fertilizers are used
- Can be used by itself, mixed with topsoil or potting soil, or any other sterile media
- Chemically inert, does not deteriorate and has an essentially neutral pH
- Free of disease, weed seeds and insects
- Nontoxic, safe and economical to use

PRO-MIX®

Fine-tuned for growers who seek efficiency, superior plant quality, disease suppression and resistance to environmental stresses. Choose PRO-MIX products with MYCORRHIZAE, BIOFUNGICIDE or both to deliver outstanding plant quality and crop performance.

Mycorrhizae offers greater plant yield and nutrient accumulation through the process of root and fungi symbiotic association. Its major role is to enhance nutrient and water uptake by the host plant by exploiting a larger volume of soil than roots alone can do.

Item #	Description	Size	Quantity
310	Pro-Mix BXM	3.8 cf	30/Pallet

This mix is a solution for growers seeking to benefit from both the nutrient retention ability of vermiculite and a perlite content providing limited but proper drainage capacities. Combined with high-quality fibrous peat moss, this formulation is ideal for growers looking for a general purpose medium which creates a well-balanced growing environment.

Item #	Description	Size	Quantity
311	Pro-Mix HPM	3.8 cf	30/Pallet

This higher perlite mix provides a great growing environment that offers significant drainage capacity, increased air porosity and lower water retention. The added benefit of fibrous peat moss and coarse perlite makes this formulation ideal for growers who require a superior-quality product adapted to their needs for watering flexibility and crop seasonality.

Item #	Description	Size	Quantity
312	Pro-Mix FPX with Biostimulant	3.8 cf	30/Pallet

Providing an optimized growing environment is fundamental, especially when it comes to plugs and germination, as it will define future productivity levels. This mix is well adapted for water-sensitive crops by providing low water retention levels and good air porosity for developing seedlings.

Professional and expert producers of peat moss and bark-based growing mixes for professional use in North America. A variety of formulations to choose from for the production of a wide variety of crops.

Resilience (RSI) is now available with the #1, #4, and #7 growing mixes. The silicon additive enhances plant quality resulting in thicker/stronger stems, compact growth, increased root mass, and extended resistance to wilt.

Item #	Description	Size	Quantity
313	Sunshine Mix #1 with RSI	3.8 cf	30/Pallet

An all-purpose lightweight growing mix, a versatile peat based formulation for expert growers. It is used for a wide variety of crops from cuttings to finished product.

Item #	Description	Size	Quantity
314	Sunshine Mix #4 with RSI	3.8 cf	30/Pallet

Recommended where high air capacity and fast drainage are needed: during winter months, for water and salt sensitive crops, and where frequent leaching is required.

Item #	Description	Size	Quantity
315	Sunshine Mix #7 with RSI	3.8 cf	30/Pallet

Polymer gel holds available water near the roots making it an excellent mix for plants needing frequent watering or receiving less than ideal care once they leave the greenhouse.

**Osmocote®
Plus**

Slow Release Fertilizers

Osmocote fertilizers are an innovative product that applies scientific horticultural knowledge. These products provide a choice of longevities as well as the way nutrients are released ensuring that growers receive the highest quality and return on investment.

Item #	Product Code	Description	Size
316	520-A903206C-IC	Osmocote 15-9-12 3-4 months	50 lbs

Recommended for use when growing a wide variety of plants, alone or in combination with water soluble fertilizer, for a steady source of nutrition throughout the season. Contains 100% Resin Coated N-P-K+Micro-nutrient cores. This product has a standard pattern of release.

- For use in greenhouse, nursery and foliage production, container gardens, interiorscapes and landscapes
- ICL Specialty Fertilizers Patterned Nutrient Release Technology™ meets specific feeding cycles with unmatched consistency, efficiency and safety
- "Standard" release products are recommended for use when consistent fertility is required throughout the plant's growth cycle
- Special circumstances such as sensitive or high-value crops can be fertilized with this product
- For use with Dibbling equipment
- Can be Incorporated into growing media or Surface Applied in the container

Item #	Product Code	Description	Size
317	520-A90550C-IC	Osmocote 14-14-14 3-4 months	50 lbs

General purpose formulation for a wide variety of plant types. 3-4 month longevity. Suitable for use in nursery, foliage and greenhouse production, container gardens, interiorscapes and landscapes.

- Excellent as a base feed for heavy-feeding greenhouse and nursery crops
- Ideal for topdressing established hanging baskets and perennials
- Safe for long-term feeding of interior foliage plants
- Eliminates repeated applications, saving time and labour costs

Item #	Product Code	Description	Size
318	520-A99404C-IC	Fusion 19-6-9 5-6 months	50 lbs

A fusion enhanced fertilizer specially developed for surface applications in container nursery stock. Re-application is minimized, which reduces additional fertilizer and labour costs. By keeping more fertilizer in the pot from the start, plants consistently receive the nutrition they need to achieve superior results.

- When applied as directed, the unique Fusion Technology works to bind the prills to the growing media; should containers get knocked over, more of the fertilizer stays in place, minimizing the need for reapplication.

Peters[®] Professional

Water-Soluble Fertilizers

Peters Professional delivers a comprehensive fertilization plan to meet your needs and assures that nutrients and trace elements remain readily available for fast and easy absorption.

Item #	Product Code	Description	Size
319	510-G99353-IC	Plant Starter 10-30-20	25 lbs

This is a powerful formulation that is designed to stimulate the development of flower buds. This contains high phosphate levels and has the N:K ratio of 1:2 which is ideal for bud formation and development.

Item #	Product Code	Description	Size
320	510-G99253-IC	Peat Lite Special 20-10-20	25 lbs

This is ideal for use in dull weather conditions and at lower temperatures especially recommended for application when growth is desired during the winter season. This contains a lot of fast-absorbing nitrate nitrogen for quick effects.

Item #	Product Code	Description	Size
321	510-G99293-IC	General Purpose 20-20-20	25 lbs

This contains a growth-increasing formula with broad application possibilities. It is a balanced NPK formulation which contains urea and is therefore particularly suitable for use in the spring and summer. This can also be used as a foliar feed.

Item #	Product Code	Description	Size
322	510-G99713-IC	Peters 30-10-10	25 lbs

Ideal for in-ground field use, this classic formula provides extra nitrogen for bedding plants, containerized woody plants, flowering pot crops, potted foliage and landscape applications, plus plugs of all types.

Item #	Product Code	Description	Size
323	510-G99008C-IC	Peters 19-11-21	25 lbs

Water soluble fertilizer with a formulation that provides your plants with the nutrition they need to thrive while easily conveniently managing alkalinity of your irrigation water.

Fertilizer Applications & WATERING EQUIPMENT

Nature Source Plant Food

Item #	Product Code	Description	Size
324	540-7545CN-NA	Professional Plant Food 10-4-3	4.7 gal

Nature's Source plant food is easy, efficient and effective in helping boost your crops' nutrient efficiency. The concentrated formulas are easy to mix and goes a long way to help ease the stress of growing plants. Nature's Source simplifies feeding while producing premium quality products. GMO Free & Pathogen Free-heavy metals free.

Fertilizer Injector

Item #	Product Code	Description
325	867-113209-DO	SD30 2.5% Fertilizer Injector

SuperDos operates without electricity to precisely inject liquid concentrates into a water supply line using fluid flow as the power source. SuperDos is designed with a patented internal mixing chamber that promotes homogeneous mixing, while segregating harsh chemicals from critical internal components.

- Water-Driven
- Proportional Injector
- High chemical compatibility
- Accurate and reliable at all flow rates
- Quick-change maintenance parts
- Low pressure loss
- External Adjustment
- Eliminates the need for electricity and allows a wide range of chemical uses
- More cost effective and easy to install, operate, and maintain
